Further, the publisher shall not be liable for damages if there is failure to publish an advertisement for any reason.

5. Failure to make insertion orders correspond in price and otherwise with the rate schedule is regarded only as a clerical error and publication is made and charged for upon the terms of the schedule in force without further notice. Any production material submitted and accepted after the closing date for the submission of such material will be printed as submitted and billed accordingly.

AVERAGE MONTHLY CIRCULATION

The immediately preceding three year’s figures are averaged to form the current base figure. This is appropriately adjusted for changes in theatre services, construction and other known factors affecting circulation at the time of rate card publication.

This circulation projection is to serve as a guide for advertisers. It is not a guarantee. Publisher guarantees to provide complete service to theatrical attractions at listed theatres. Actual circulation experience varies from year to year. Publisher adds theatres wherever practical to support circulation projections.

If distribution to listed theatres falls significantly below average monthly circulation projections, compensating circulation will be provided as possible and applicable in additional markets and/or increased size of space for future insertions in the affected markets.
