CONTRACT AND COPY REGULATIONS

1. Contract period is 12 consecutive months. All contracts subject to increases in rates and applicable rate protection, if any. When new rates are announced, such announcement will be made 3 months prior to effective date.
2. Publisher reserves the right to exclude any advertisement which, in its opinion, does not conform to the standards of the publications.
3. All advertisements are accepted and published upon the representation that the agency and/or advertiser is authorized to publish the entire contents and subject matter thereof. In consideration of the publisher's acceptance of such advertisements for publication, the agency and/or advertiser will indemnify and hold the publisher harmless from and against any loss or expense resulting from claims or suits based upon the contents or subject matter of such advertisements, including, without limitation, claims or suits for libel, violation of right of privacy, plagiarism and copyright infringement.
4. All orders are accepted subject to labor disputes, accidents, fires, acts of God, or other contingencies beyond the publisher's control (whether like or unlike any of those enumerated herein) which prevent the publisher from partially or completely producing or distributing any of the listed publications. Further, the publisher shall not be liable for damages if there is failure to publish an advertisement for any reason.
5. Failure to make insertion orders correspond in price and otherwise with the rate schedule is regarded only as a clerical error and publication is made and charged for upon the terms of the schedule in force without further notice. Any production material submitted and accepted after the closing date for the submission of such material will be printed as submitted and billed accordingly.
6. No contract, insertion orders or copy changes will be accepted without written confirmation. Only those conditions appearing in the publisher's acceptance of advertising orders are binding upon the publisher. Publisher will not be bound by any condition of any nature appearing on order blanks or copy instructions submitted by or on behalf of the advertiser when such condition conflicts with any provision contained within its Rate Card or with the magazine's policies.
7. All advertisements must be clearly identifiable as such with the trademark or signature of the advertiser, or the word "Advertisement" shall be placed with copy which in the publisher's opinion resembles editorial copy.
8. Frequency discounts are earned for space used within a 12 month period. For New York advertisers market, retail and fashion insertions may be combined for frequency within a 12 month period.
9. Advertising schedules comprised of mixed space units of standard sizes earn frequency discount only for the number of insertions of the same unit of space in a contract year.
10. In addition to multiple insertions in the same market, advertisers can earn frequency as follows: National editions earn frequency in all markets. New York PLAYBILL® insertions earn frequency in all markets including National editions. Twelve time (12x) advertisers in complete Midwest, Mid-Atlantic, Western, Southeast, South Central or New England markets earn twelve time (12x) frequency in all such markets (other than National editions or New York). Frequency earned in complete Midwest, Mid-Atlantic, Western, Southeast, South Central or New England markets applies to segments of the same markets. Segments of Midwest, Mid-Atlantic, Western, Southeast, South Central or New England markets do not earn frequency for other than the same market segment.

AVERAGE MONTHLY CIRCULATION

The immediately preceding three year's figures are averaged to form the current base figure. This is appropriately adjusted for changes in theatre services, construction and other known factors affecting circulation at the time of rate card publication.

Actual circulation experience varies from year to year. Publisher adds theatres wherever practical to support circulation projections.

If distribution to listed theatres falls significantly below average monthly circulation projections, compensating circulation will be provided as possible and applicable in additional markets and/or increased size of space for future insertions in the affected markets.
